Welcome to Cambridge International School

Cambridge International School is one of the most established and successful international schools in Dubai. The school was initially founded in 1983 in Karama as The Cambridge High School. The school has well over 2700 students from around 80 nationalities attending its current campus in Al Twar.

Cambridge International School has grown from strength to strength over the years and has a well-proven track record of success in both academic and extra-curricular activities.

In Year 9 (Key Stage 3) will continue to follow the National Curriculum that provides our students with an introduction to the essential knowledge that they need to be educated citizens. It introduces them to the best that has been thought and said; and helps engender an appreciation of human creativity and achievement.

The National Curriculum is just one element in the education of every child. There is time and space in the school day and in each week, term and year to range beyond the National Curriculum specifications. The National Curriculum provides an outline of core knowledge around which teachers develop exciting and stimulating lessons to promote the development of pupils' knowledge, understanding and skills as part of the wider school curriculum.

Along with the National Curriculum, Year 9 students will be introduced to the IGCSE Curriculum and will start the IGCSE course for one optional subject. This course will be studied for two years and in summer 2024, the students will sit their first IGCSE examination. The remaining six IGCSE subjects will be undertaken for study in Year 10 and will be tested at the end of Year 11.

Cambridge International School offers a unique international learning experience for students. Its education programme maintains a holistic perspective and is based on the principles of Global Citizenship, growing by Learning, Pursuing Excellence and Leading through Innovation.

GEMS Education

GEMS, Global Educational Management Systems, manages a growing network of quality international schools, providing high standards of education to children from around the world. High service standards and a strong quality assurance programme are the hallmarks of GEMS systems. With decades of experience GEMS has the expertise to provide a variety of curriculum including the National Curriculum for England.

GEMS have the desire, passion and capability to unlock the potential of students. Four core principles form the foundation of GEMS educational programmes, designed to guide students to reach their full all-round potential.

Global Citizenship

We respect, care, and have empathy for all, accepting that we are all different but recognising that we are all the same. We see active participation in the community, from the most local to the most global, as the foundation of a valuable life. We celebrate diversity. We take pride in being generous. We believe social, cultural, economic and environmental awareness prepares us to play our part in shaping a sustainable future for ourselves and those around us.

Growing by Learning

For us learning is about acquiring the knowledge, skills, behaviours and insight to expand our horizons and help us to grow. To grow, we must be open to learn. We foster the spirit of enquiry, encouraging equally creative and critical thinking. We value the mental agility to stay flexible in the face of change, adaptable in our relationships with others and nimble in our ability to put ideas into action.

Pursuing Excellence

We see being great at something as a starting point, not an endpoint. We believe in having high standards and aspiring to be the best we can be. We strive to build resilience and strength of character, the moral compass to do the right thing, even when it's not the easy thing to do. We take accountability for our performance, and set ourselves goals we know we can't reach yet, because we know that by stretching to meet them we can get further than we imagined.

Leading through Innovation

Innovation requires bold thinking, fresh ideas and brave leadership. It's about entrepreneurship. Finding better ways of doing things... and doing them. To make a real contribution to a better future we must lead individual by individual, idea by idea, taking calculated risks, spotting opportunities, and acting decisively. Knowing that, by relentlessly exploring our passions, we will open up new possibilities.

KS 3 (Year 9) Curriculum 2022-2023

MANDATORY COURSE DESCRIPTIONS:

- Arabic (For Arabs and Non-Arabs)
- Islamic (For Arabs and Non Arabs) or PSHE (For Non-Muslims)
- UAE Moral Social Curriculum (For Arabs and Non-Arabs)
- English
- Mathematics
- Science
- One IGCSE subject (will sit the examination at the end of Year 10)

CURRICULUM STRUCTURE:

Year 9 students will study the following courses:

Subjects	Number of lessons per week	IGCSE Subject (Choose one) Examination in May 2023
•		· ·
English	5	4 lessons per week
Mathematics	5	***French
Science	4	*Sociology
Arabic A&B	3+ 1 Wellbeing	*Computer Science
Islamic Studies / PSHE	2	**ICT
Moral Social Curriculum	2	**Business
Humanities	1	
Drama	1	
Physical Education	2	
Art	1	
Wellbeing (40 minutes)	4	

^{*} This subject will **not** be offered as a new subject again in Year 10 (2023-2024)

^{**} This subject will be offered as a new subject again in Year 10 (2023-2024)

^{***} Non- Arab students if they wish, have a choice to study this subject for three year and sit the examination in Year 11 (2024-2025)

Year 9 - List of IGCSE Subject Choices 2022-2023

Year 9 students will continue to study the Key Stage 3 National Curriculum. Students will select <u>One</u> IGCSE subject. The course will run for two years and at the end of these two years in Year 10, students will sit the external examination.

National Curriculum	MOE Subjects	IGCSE Subject
Subjects		
English	Arabic (A & B)	***French
Mathematics	Islamic Studies/ PSHE	*Sociology
Science	Moral Social Curriculum	*Computer Science
Humanities		**ICT
Physical Education		**Business
Art		
Drama		

^{*} This subject will **not** be offered as a new subject again in Year 10 (2023-2024)

• Arabic A & B: Will be scheduled for 20 minutes of **One** Well-being session

Please select your first and second preference.

	IGCSE Subject
First Preference	
Second Preference	

The selected subjects are preferences and subject confirmation is dependent on course numbers, teacher recommendations and CAT4 scores.

I, (student name)		in class	confirm my preferred choice and
recognise that this may be ame	nded after consulta	tion.

^{**} This subject will be offered as a new subject again in Year 10 (2023-2024)

^{***} Non- Arab students if they wish, have a choice to study this subject for three year and sit the examination in Year 11 (2024-2025)

Positive Education Enhanced Curriculum (PEEC)

CIS has implemented across FS1 to Year 13 the model of Positive Education constructed by Geelong Grammar School Australia. It is vital that all teachers and students align to this model of Positive Education called PEEC- an acronym for Positive Education Enhanced Curriculum. It is a curriculum that has been designed to support teachers and value add to their practice, wisdom and experience in delivering Positive Education.

In our Curriculum, we have timetabled 40 minutes of this session called well-being that will be dedicated to the explicit teaching of PEEC. Though we do run other pastoral programs- Moral Ed, House Assemblies, House families or even the Head of Year (HoY) Assembly, this program will be taught by the Learning Manager (LM).

Every student will have an e- folder created by the LM and managed by the HoY. All assignments will be uploaded on Phoenix classroom. This applies to all year groups of the Secondary School. Studies have shown that where students have access to Positive Education, their performance has remained high – meeting the criteria of HPL, where everyone is a high performer!

It is important that the relationship and rapport that a teacher has with their students is the best Positive Education tool available and that is why it is important for teachers and students to align and work in collaboration for the wellbeing of both.

So, beginning with the inside of the CIS model- where it simply says Flourish-This is the desired outcome we have for our students, teachers, staff, parents and the wider community. In simple words we can describe flourish as feeling good and doing good. And by feeling good this leads to a feeling of cultivated resilience, healthy levels of optimism, energy and emotional stability. Whereas, doing good refers to caring for others, nurturing positive relationship and using one's skills and knowledge to contribute to society.

Next, we move onto the character strengths- stalk/ stem. This highlights the importance of schools introducing a common language of what is right, what works, a language of the positive human qualities when actioned contribute to living a good life.

The character strengths link to the six related domains of our model into wellbeing- Positive Engagement, Positive Accomplishment, Positive Purpose, Positive Emotions, Positive relationships and Positive health. Each of these domains contribute to a meaningful overall wellbeing and is also supported by Science.

Finally, as we move to the outside of the flower- Learn, live, teach and embed. This is how the model will be brought to life. The curriculum provides opportunities for our teachers and parents in our community to learn the principles of Positive Education. We endeavor to role model and live according to these principles. We will be explicitly and implicitly teaching the related topics of wellbeing.

We endeavor to embed these principles in our whole school practices and policies. As you know CIS is passionate about further strengthening wellbeing which is the heart of our school

CIS curriculum empowers our learners to aim high. As an accredited High Performance Learning school and on a journey to becoming World Class School, we develop an evidence-based set of HPL values and attributes. The curriculum is the

means by which the school achieves its objective of educating children in the knowledge, skills and concepts that they need in order to lead fulfilling lives and become lifelong learners.

High Performance Learning is a research-based, pedagogy-led philosophy that responds to our growing understanding of human capability. It normalises high performance for all students and uses a unique teaching and learning framework to systematically develop the cognitive skills, values, attitudes and attributes needed for lifetime success.

As part of the CIS curriculum for all learners, the concept of enhancing learning and life skills, as well as knowledge, is seen as a key priority. HPL identifies key characteristics and attributes that prepare young people to succeed in learning and in life, and categorises these into Cognitive Performance characteristics (ACPs) and Values, Attributes (VAAs).

Advanced Cognitive Performance characteristics (ACPs)

- Meta-Thinking: Reflecting on their own thinking, knowingly using a wide range of thinking approaches, and transferring knowledge from one circumstance to another;
- Self-regulation: The ability to monitor, evaluate and selfcorrect; Big picture thinking; Working with big ideas and holistic concepts.
- **Linking:** Use connections from past experiences to seek possible generalisations and assist conclusions.
- Analysis: Critical or logical thinking; the ability to deduct, hypothesise and reason; Complex and multi-step problem solving; The ability to break down a task, decide on a suitable approach and then act.
- **Creating:** Intellectual playfulness; The ability to abandon one idea for another or generate multiple solutions.
- Realising: The ability to use some skills with such ease as they are no longer require active thinking.

Values, Attitudes and Attributes (VAAs)

- **Empathetic:** Collaborative Seeking out opportunities to receive responses to work, to present their own ideas to others clearly and concisely and to listen to and act upon the views of others.
- **Agile Thinking:** Enquiring; Being curious, proactive and thinking independently Creative and enterprising; open-minded and flexible in thought processes.
- **Hard-working:** Resilience; Overcoming setbacks and remaining confident, focused, flexible and optimistic; Perseverance; Being able to keep going, to face obstacles and difficulties but never give up.

وفقا لوزارة التربية والتعليم يجب على كل الطلاب العرب دراسة اللغة العربية من الصف الأول حتى الصف الثاني عشر .

وصف المنهج:

يعتمد المنهج الوزاري لدولة الإمارات العربية المتحدة على أسس وطرائق التعلم العالمية لإكساب اللغات لأبنائها، وتأتي اللغة العربية على رأس أولوياتها بفروعها المختلفة، حتى يتمكن الطلاب من إتقانها ويكونوا قادرين على تطوير مهاراتهم اللغوية وجعلهم يقرؤون بصورة مستقلة، يحللون، يُندعون، يُبدعون، يبحثون.

وذلك من خلال تكيف الطالب مع عدد ساعات لتعلم اللغة العربية (165 دقيقة) في الأسبوع لطلاب الصف (7) وذلك حسب توجيهات الوزارة.

- المهارات التي ينبغي على الطالب إتقانها لهذا العام حسب معايير الوثيقة الوطنية هي:

- مهارة الكتابة: يقتبس دائمًا من مصادر رقمية عدة في أعماله الكتابية. مكتملة العناصر يكتب نصا ذا جودة الإخراج مراعي مشروعات يخطط مستقلاً البحث من خلال إعداد الأسئلة المناسبة المتعلقة بالبحث، وتطبيق إستراتيجيات البحث المتعددة للمادة المرجعية. ا (سردية ينتج المتعلم نصوص ة وإقناعية ووصفية) ومعلوماتي) كلمة لكل نص، 250من (ا في كتابته تقيده بمعايير مظهر النحو والإملاء، موظفا بعض الأساليب البلاغية.
- مهارة القراءة: يحلل بالتفصيل العلاقات بين الموضوعات الرئيسة المتعددة، والحبكات، ووجهات النظر المختلفة في نص معين. يقرأ النص الأدبي قراءة معبرة منغمة. م بعض الأمثلة على يحدد ويقي اللغة المجازية، والمعاني الدلالية، ويذكر دور الخيال والأساليب البلاغية. يذكر دائمًا أوجه التشابه لاف بين النتاجات المختلفة في موضوع محدد. يحلل دائمًا الأعمال القصصية اعلى الأنماط الحديثة اعتماد الموجودة في الأدب.
- مهارة الاستماع والمحادثة: يشارك دائمًا بفعالية في النقاشات الجماعية من خلال القراءة الضرورية والبحث عن الموضوعات المناسبة، ويقدم الله مراعيَّة فرديًا معلوماتيًعروض استخدام الهياكل التنظيمية والتواصل البصري واللفظ الواضح. م دائمًا يحلل ويفسر ويقي الوسائط الرقمية المناسبة والعروض المرئية للبيانات، ويحدد الهدف ووجهة النظر اللمقدمة شفوي يقدم دائمًا آراءه والنتائج التي توصل إليها مع ذكر الأوصاف والحقائق والأمثلة المحددة ويستخدم الهياكل التنظيمية، والتواصل البصري المناسب، والكتب، واللفظ الواضح، والأدوات الأخرى للتحدث أمام الجمهور.

تقدير:

طرق التقييم هي كل من (اختبارات ، مشاريع كبرى ، عروض تقديمية) وتكوينية (مسابقات ، إملاء ، مناقشات ، لعب أدوار ، وأنشطة

دراسية خرى.

اللغة العربية للطلاب الناطقين بها

القسم: اللغة العربية للناطقين بها المعلم: عبير الديناري سيد المنهج: منهج اللغة العربية للطلاب العرب التابع لوزارة التربية والتعليم.

Faculty: Arabic (B) Leader: Ramy Wagdy

According to the Ministry of Education ruling, it is compulsory that students study Arabic from Year 1 to Year 12

Course Description

Year 9 has three Arabic lessons each week. Each lesson is 55 minutes each. Students are grouped according to their ability and lessons are differentiated to support all learners.

What will students learn? Listening

- The listener can understand the meaning in narrative and descriptive texts composed of more than one paragraph and organised in clear and coherent linguistic structure
- The listener can understand the main facts and many other details. His understanding may be based on context and knowledge of linguistic structure and content

Speaking

- The speaker can successfully communicate in most informal conversations and a limited number of formal conversations related to work, current news and topics of general and social interest
- The speaker shows ability to narrate and describe using all tenses, present, past and future at the paragraph level
- The speaker generally commits errors verb conjugation and grammatical structure while talking
- The speaker's communication skills are stable in quality; he can rephrase, clarify and explain thoughts
- The speaker can participate in dialogues using appropriately correct, clear and precise linguistic structure to convey desired message

Reading

- The reader can understand narrative and descriptive text comprised of more than one paragraph; can understand main ideas and supporting details.
 Comprehension is derived mainly of knowledge from context and content
- The reader can clearly understand the information organisation (discourse) and linguistic used, though there maybe gaps in understanding them

Writing

- The writer can write narrative and descriptive text using all tenses and a variety of linguistic structures
- Paragraphs are cohesive in terms of structure and clarity of meaning and use of connectors
- The writer may resort to excessive inappropriate repetition and may resort to using oral and written patterns used in mother tongue

Assessment

Assessment methods are both summative (tests, major projects, and presentations) and formative (quizzes, dictation, discussions, role-plays, and other class activities).

Course Description

Students have 2 Islamic lessons a week (50 minutes each). We have two sections for each year group (Islamic for Arabs and Islamic for Non-Arabs) We hope every Muslim student at CIS is proud to be a Muslim and learns the basic knowledge of the religion. Our aim is to acknowledge all Muslim students regarding the Islamic values that Qur'an and Sunnah are assert on, so they can reflect what they learned in real life situations. Also, to refer to Qur'anic verses and Ahadith to analyze contemporary issues in accordance to the Islamic shari'ah.

We will cover the themes and the stands of the Islamic education in our curriculum: Divine revelation, Islamic beliefs, Islamic Ruling and Aims, Islamic values and manners, Biographies, Identity and the contemporary issues.

What will students learn?

CIS Islamic Education Syllabus is based on UAE recommended Curriculum of study and aims to develop in learners the following:

- An understanding of the concepts of commitment (Islam) and faith (Imaan) in a religious tradition
- An awareness of how spiritual and moral issues (Ihsaan) permeate life experiences and the manner in which those may relate to students' own lives
- A respect for the diverse range of religious and cultural traditions in the UAE and the wider world
- A range of investigative, critical and moral thinking skills to enable them to make informed choices and decisions

Assessment

Student assessment will include formative and summative evaluations. Informal assessments will include teacher observations, whole class and group discussions, oral recitation and daily coursework sheets. Formal assessments include projects, quizzes, tests, and oral testing for Qurán memorisation and Suwar's meanings.

لتربية الإسلامية

قسم التربية الإسلامية رئيسة قسم التربية الإسلامية : لينا إسماعيل عبد السلام المنهج : التربية الإسلامية الخاصة بالعرب يجب على جميع الطلاب المسلمين دراسة مادة التربية الإسلامية وذلك طبقا لقواعد وزارة التعليم.

وصف المنهج:

سيقوم الطلاب بدراسة حصنين للتربية الإسلامية في الأسبوع و سوف تكون المدة الزمنية للحصة خمسين دقيقة، كما ينقسم الطلاب في المرحلة الدراسية إلى قسمين: قسم التربية الإسلامية للعرب وقسم التربية الإسلامية لغير العرب .

ونأمل أن يكون كل طالب مسلم من طلاب مدرسة كامبردج الدولية فخورًا بكونه مسلمًا وأن تتكون عنده المعرفة الأساسية للدين الإسلامي، كما أن هدفنا هو أن يتعرف الطلاب المسلمون على القيم الإسلامية التي أكدها القرآن الكريم والسنة النبوية فيمكنهم حينها تطبيق ما تعلموه في مواقفهم الحياتية، كما يمكنهم تحليل القضايا المعاصرة مع الاستدلال بآيات من القرآن الكريم والأحاديث النبوية والشريعة الإسلامية.

سوف يقوم الطلاب بدراسة سيرة سيدنا محمد صلى الله عليه وسلم؛ فهو قدوتنا في الإسلام وسوف يستخلص الطلاب الدروس المستفادة من سيرته العطرة وتطبيقها في حياتهم. . يعتمد منهج التربية الإسلامية على مجالات و محاور المنهاج الدراسي الموصى به في دولة الإمارات و هي كالتالي: الوحي الإلهي، العقيدة، أحكام الإسلام و مقاصده ،قيم الإسلام و آدابه ، السير و الشخصيات، الهوية و القضايا المعاصرة.

منهج التربية الإسلامية للطلاب العرب

يستند منهج كامبردج للتربية الإسلامية إلى المنهاج الدراسي الموصى به في دولة الإمارات العربية المتحدة والذي يهدف إلى تطوير المتعلمين فيما يلي:

- الوعي الكامل لمفاهيم (الإسلام) و (الإيمان) عن طريق ممارسات دينية متوافقة مع الواقع .
- الوعي بكيفية تغلغل القضايا الروحية والأخلاقية مثل (الإحسان) في الخبرات الحياتية والتي
 تتعلق بحياة الطلاب الخاصة.
 - · احترام التقاليد الدينية والثقافية لدولة الإمارات العربية المتحدة والعالم أجمع.
- تطوير المهارات العقلية كالبحث و التفكير الناقد لتمكين الطلاب من اتخاذ قرارات مستنيرة وخيارات صحيحة. وفقًا لتعاليم الدين الإسلامي الصحيح.

التقييم:

سيتم تقييم الطلاب من خلال التقييم المبدئي و التقييم الختامي و أيضًا من خلال ملاحظات المعلم، تلاوة و حفظ القرآن الكريم و تفسيره.

Faculty: UAE Moral Social Curriculum Leader: Meena Mehrotra & Nishrin Gilitwala

According to the Ministry of Education ruling, it is compulsory that students study UAE Social Studies. Students receive 2 Social Studies lesson per week (55 minutes)

Course Description

Social Studies is a core subject and its new international program provides the student with an orientation to their place in the world both in terms of location and time. It explores the ways in which different people acquire and use resources and the way in which they organize and govern themselves to create productive societies. Students learn how societies are formed and how technological developments shaped communities and regions around the world in different periods to come up with creative solutions for the present and future challenges. Students understand the mutual impact people and landforms have on each other and the importance of geography in understanding the human condition. To assist students in their studies they learn to use maps, globes and a wide range of print and electronic resources. Social Studies units are often integrated with the writing program to provide an authentic context for student writing.

What will students learn?

Topics of study include but are not limited to:

- UAE Connecting to the World, looking at UAE's location in the continent and on the globe, students will explore landforms and how societies interact with their environments. Common commodities and natural resources, imports and exports, transportation, and other aspects of looking at how parts of the world are interconnected.
- UAE, Yesterday, Today and Tomorrow: Students will learn about the roots of UAE and its role in history, moving through history to the present day, and projecting UAE's role in the future.

The study of Social Studies will focus on the following key areas: Knowledge of Social Studies component

History-students show knowledge of how significant events and developments have impact and play a role in constituting other communities in the region over different periods of time and in different places

Civics- Rights and privileges of belonging to communities inside and outside of UAE. The factors that shape nations and governing structures both locally and globally. Geography- students are able to show knowledge of the earth, its properties and how such are related to human interactions as well as between human societies and the natural environment

National Identity- students show sense of belonging and loyalty to their country and society. Students are able to share the basis and different forms and duties of the government and role of members of the society

Economics-Students understand the role of government in developing national and international economies.

UAE Culture, Heritage and Tolerance-Identify milestones of UAE national development and elements of its heritage. Explain the responsibilities and privileges of living in the UAE and demonstrate a sense of belonging to the UAE community

Assessment

Assessment methods are both summative (Mid Term and Unit tests, Research Based tasks, and presentations) and formative (quizzes, discussions, role-plays, and other class activities)

Faculty: English Leader: Sara Inayat

English is a mandatory course that is studied substantially from EYFS1 onwards. Students receive five English lessons a week (55 minutes each)

The overarching aim for English in the National Curriculum to promote high standards of language literacy and equipping pupils with a strong command of the spoken and written word, and to develop their love of literature through widespread reading for enjoyment.

Course Description

The overarching aim for English in the National Curriculum is to promote high standards of language and literacy by equipping pupils with a strong command of the spoken and written word, and to develop their love of literature through widespread reading for enjoyment. It also aims to ensure that all students:

- Have the skills needed for life through English lessons. For example, the
 ability to plan effectively, to handle several pieces of information at the
 same time, to understand instructions, to work under pressure, to make
 effective presentations, to listen and respond to others and to write in a
 range of forms.
- Develop as people during English classes. This includes learning to make informed choices, using their imaginations, experiencing a range of wonderful books and films, developing an awareness of issues that affect the world and acquiring the language needed to articulate their feelings.

Year 9 is a fundamental year in preparation for IGCSE courses. This allows students to experience the course content and skills. The assessments are also practice assessments and exams for GCSE and this allows your child to gain valuable feedback ready for their IGCSE in Year 11. English is a mandatory course and students receive five English lessons a week (50 minutes each)

What will students learn?

Throughout Key Stage 3 (Year 7 - 9) students will be taught: Reading Short texts, novel analysis and poetry to develop an appreciation and love of reading, and read increasingly challenging material independently through:

- Reading a wide range of fiction and non-fiction, including in particular whole books, short stories, poems and plays with a wide coverage of genres, historical periods, forms and authors.
- choosing and reading books independently for challenge, interest and enjoyment
- rereading books encountered earlier to increase familiarity with them and provide a basis for making comparisons
- Understand increasingly challenging texts through:
- learning new vocabulary, relating it explicitly to known vocabulary and understanding it with the help of context and dictionaries
- making inferences and referring to evidence in the text
- knowing the purpose, audience for and context of the writing and drawing on this knowledge to support comprehension
- Checking their understanding to make sure that what they have read makes

(continue....)

Read critically through:

- knowing how language, including figurative language, vocabulary choice, grammar, text structure and organisational features, presents meaning
- recognising a range of poetic conventions and understanding how these have been used
- studying setting, plot, and characterisation, and the effects of these
- understanding how the work of dramatists is communicated effectively through performance and how alternative staging allows for different interpretations of a play
- making critical comparisons across texts studying a range of authors, including at least 2 authors in depth each year

Writing

Description, letter, explanation article, poetry analysis and comparison Write accurately, fluently, effectively and at length for pleasure and information through:

- writing for a wide range of purposes and audiences, including: well-structured formal expository and narrative essays; stories, scripts, poetry and other imaginative writing; notes and polished scripts for talks and presentations and a range of other narrative and non-narrative texts, including arguments, and personal and formal letters
- summarising and organising material, and supporting ideas and arguments with any necessary factual detail
- applying their growing knowledge of vocabulary, grammar and text structure to their writing and selecting the appropriate form
- drawing on knowledge of literary and rhetorical devices from their reading and listening to enhance the impact of their writing
- Plan, draft, edit and proofread through:
- considering how their writing reflects the audiences and purposes for which it was intended
- amending the vocabulary, grammar and structure of their writing to improve its coherence and overall effectiveness
- paying attention to accuracy in grammar, punctuation and spelling; applying the spelling patterns

(continue....)

Grammar and vocabulary

Consolidate and build on their knowledge of grammar and vocabulary through:

- studying the effectiveness and impact of the grammatical features of the texts they read
- drawing on new vocabulary and grammatical constructions from their reading and listening, and using these consciously in their writing and speech to achieve particular effects
- knowing and understanding the differences between spoken and written language, including differences associated with formal and informal registers, and between Standard English and other varieties of English
- using Standard English confidently in their own writing and speech
- discussing reading, writing and spoken language with precise and confident use of linguistic and literary terminology

Speaking

- Research Based Learning Task
- Classroom Discussion
- Informative Speeches and Presentations
- Formal debates and structured discussions
- Role Play
- Speak confidently and effectively, including through:
- using Standard English confidently in a range of formal and informal contexts, including classroom discussion
- giving short speeches and presentations, expressing their own ideas and keeping to the point
- participating in formal debates and structured discussions, summarising and/or building on what has been said
- improvising, rehearsing and performing play scripts and poetry in order to generate languages and discuss language use and meaning, using role, intonation, tone, volume, mood, silence, stillness and action to add impact

Assessment

Reading and Writing is assessed twice per term

Speaking and Listening is assessed once per term

Student assessment will include informal and formal assessment.

 Assessment will include observation of class participation, oral presentations, written work, compositions, essays, vocabulary, reading responses, and reading comprehension.

Faculty: Mathematics Leader: Joseph Thomas

Mathematics is mandatory course that is studied substantially from EYFS 1 onwards. Students receive 5 Maths lessons a week (55 minutes each)

Mathematics is important in everyday life and we all use Maths every day. Your child will find that many jobs require an understanding of mathematical concepts and college places depend on good results. Most subjects use ideas encountered in Maths.

Course Description

It is a core subject and it is therefore compulsory and is studied throughout Key Stages 1 - 4.

Studying Maths will allow your child to develop the following skills:

- Problem solving.
- Logical reasoning.
- The ability to think in abstract ways

In Year 9 your child will build on knowledge gained in previous years. They will learn how to understand:

- Number and algebra this includes numbers and the number system, calculations, ways of problem solving and algebra.
- Shape and space measure, shape and co-ordinates.
- Handling data working out which questions can be answered by collecting data, processing it and working out what it tells us in answer to the original questions.
- Ratio and proportions-use scale factors, scale diagrams and maps express one quantity as a fraction of another, where the fraction is less than 1 and greater than 1
- Using and applying Mathematics solving increasingly demanding problems, including problems that call for them to think through several steps.
- Introduction to Trigonometry

What will students learn?

- Numbers: Round numbers and measures to an appropriate degree of accuracy, use approximation through rounding to estimate answers and calculate possible resulting errors expressed using inequality notation a<x≤b, appreciate the infinite nature of the sets of integers, real and rational numbers, standard form of numbers, Ratios, percentages and applications, Mixed fractions and operations</p>
- Data Handling & Probability: Discrete and continuous data and representations, pictorial representations of data, scatter graphs, probability
- Algebra: solving linear, simultaneous and quadratic equations, straight line graphs
- Geometry: polygons and their areas, solids and volumes, Transformations, graphs of curves, Pythagoras' theorem, scale drawing

Assessments

Students' assessment include projects, home assignments, common assessments and term exams

Faculty: Science Leader: Princy Jackson

Science is a mandatory course in Year 9.
Students receive 4 lessons a week (55 minutes each)

Course Description

Science in Year 9 continues to focus on developing safe techniques to use in the laboratory and an awareness of the risks associated with using apparatus and chemicals. Students continue to use scientific method to investigate how to collect and analyze data, draw conclusions and evaluate their methods. They study how science works in everyday situations and how we can explain this using scientific theory, while using practical work to support this theory.

What will students learn? BIOLOGY:

Structure and function of living organisms: cells and organization, the skeletal and muscular systems, nutrition and digestion, gas exchange systems, reproduction, health. Material cycles and energy: photosynthesis, cellular respiration. Interactions and interdependencies: relationships in an ecosystem. Genetics and evolution: inheritance, chromosomes, DNA and genes.

PHYSICS:

Energy: calculation of fuel uses and costs in the domestic context, energy changes and transfers, changes in systems. Motion and forces: describing motion, forces, pressure in fluids, balanced forces, forces in motion. Waves: observed waves, sound waves, energy and waves, light waves. Electricity and electromagnetism: current electricity, static electricity, magnetism. Matter: physical changes, particle model, energy in matter, space physics.

CHEMISTRY:

The particulate nature of matter, atoms, elements and compounds, pure and impure substances, chemical reactions, energetics, the periodic table, materials, earth and atmosphere.

WORKING SCIENTIFICALLY:

Accuracy, precision, repeatability and reproducibility; make predictions using scientific knowledge and understanding; select, plan and carry out the most appropriate types of scientific enquiries to test predictions, including identifying independent, dependent and control variables, where appropriate; use appropriate techniques, apparatus, and materials during fieldwork and laboratory work; paying attention to health and safety; make and record observations and measurements using a range of methods for different investigations; and evaluate the reliability of methods and suggest possible improvements; apply sampling techniques, apply mathematical concepts and calculate results; present observations and data using appropriate methods, including tables and graphs, interpret observations and data, including identifying patterns and using observations, measurements and data to draw conclusions; present reasoned explanations, including explaining data in relation to predictions and hypotheses; evaluate data, showing awareness of potential sources of random and systematic error. Identify further questions arising from their results, understand and use SI units and IUPAC (International Union of Pure and Applied Chemistry) chemical nomenclature, use and derive simple equations and carry out appropriate calculations and undertake basic data analysis including simple statistical techniques

Assessment

Student assessment will include informal and formal assessment. Assessment will also include class participation, quizzes, tests, scientific investigations, and projects.

Students broaden specified studio skills in the areas of drawing, painting, printmaking, and design. Emphasis is on the development of artistic skills in various media. Creative problem solving and experimentation continue, with an aim to begin development of personal style.

Course Description

The National Curriculum for Art and Design aims to ensure that all pupils:

- produce creative work, exploring their ideas and recording their experiences
- become proficient in drawing, painting, sculpture and other art, craft and design techniques
- evaluate and analyse creative works using the language of art, craft and design
- know about great artists, craft makers and designers, and understand the historical and cultural development of their art forms.

What will students learn?

Throughout Key Stage 3 (Year 7 - 9) students will be taught:

- To use a range of techniques to record their observations in sketchbooks, journals and other media as a basis for exploring their ideas
- To use a range of techniques and media, including painting
- To increase their proficiency in the handling of different materials
- To analyse and evaluate their own work, and that of others, in order to strengthen the visual impact or applications of their work
- About the history of art, craft, design and architecture, including periods, styles and major movements from ancient times up to the present day.

Assessment

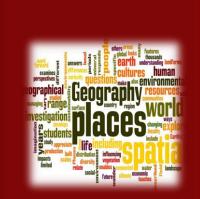

Teacher observation, participation in class, sketchbook, and projects are used to assess students.

Faculty: Humanities Leader: Arogya Mary

Students will be taught a wide range of skills from questioning to enquiry and thinking skills whilst looking at relevant and current Geographical topics and issues.

Course Description

The National Curriculum for History aims to ensure that all pupils:

- develop chronological understanding of the historical events of both World Wars, Cold War, outline prominent Leaders that participated in the War.
- analyze the cause and the impact of World Wars, Treaties, World Organizations & Cold War and to understand the impact of global war crisis on economic development of European and Russian alliance states, Far East. Compare/contrast reasons why events happened.

The National Curriculum for Geography aims to ensure that all pupils:

- develop contextual knowledge of the location of globally significant places both terrestrial and marine including their defining physical and human characteristics and how these provide a geographical context for understanding the actions of processes.
- understand the processes that give rise to key physical and human geographical features of the world, how these are interdependent and how they bring about spatial variation and change over time and are competent in the use of geographical skills.

What will students learn?

- Locational knowledge extend their locational knowledge and deepen their spatial awareness of the countries in the world using maps.
- understand how human and physical processes interact to influence, and change landscapes, environment, and the climate; and how human activity relies on effective functioning of natural systems.
- interpret Ordnance Survey maps in the classroom and the field, including using grid references and scale, topographical and other thematic mapping, and aerial and satellite photographs.
- understand historical concepts such as continuity and change, cause and consequence, similarity, difference and significance, and use them to make connections, draw contrasts, analyse trends, frame historically valid questions and create their own structured accounts, including written narratives and analyses. Understand the methods of historical enquiry, including how evidence is used rigorously to make historical claims, and discern how and why contrasting arguments and interpretations of the past have been constructed

Assessment

Student assessment will include both formal and informal assessment.

Course Outline

Computer science is the study of the foundational principles and practices of computation and computational thinking and their application in the design and development of computer systems.

This syllabus aims to encourage candidates to develop computational thinking, that is thinking about what can be computed and how, and includes consideration of the data required. Learning computational thinking involves learning to program, that is to write computer code, because this is the means by which computational thinking is expressed. Students should be working at level 6a or above in ICT and Maths at the end of KS3, for them to be considered for this subject option.

Assessment Summary

Students sit an external examination set by the Cambridge Assessment International Education (CAIE). The examination consists of two papers, the details of which can be found in the table below.

Paper 1 - Theory	Paper 2 - Problem Solving and
	Programming
1hour 45 minutes duration	1hour 45 minutes duration
This written paper contains short-answer and structured questions. There is no choice of questions 60%- weightage	This written paper contains short- answer and structured questions. There is no choice of questions. 20 of the marks for this paper are from questions set on the pre-release material. 40%- weightage

Post 16, University Pathways and Careers

Student may continue with Applied ICT and Computing in AS and A level after completing this course.

This qualification will provide an option to prepare for an advanced level of ICT qualification in their further education. Professions and areas IT graduates can take up in future include Computer Networking, Information System Management, Information Analyst, IT Coordinator and Technicians, Database Administrator and programmer.

EDEXCEL French GCSE SYLLABUS 1FR0 9-1 Grading scale

Course Outline

- Develop an understanding of French in a variety of contexts
- Acquire a knowledge of French vocabulary and structures
- Build transferable language skills
- Be able to get the ability to communicate effectively in French
- Increase awareness and understanding of countries and communities where French is spoken
- Manageable content: A flexible programme of study that allows time for a focused revision period at the end of the course
- Assessments that place an emphasis on spontaneity and grammar, as well as providing plenty of opportunities for students to apply their knowledge independently, creatively, and in authentic situations
- Straightforward and clear question papers and mark schemes.
- Continuous progression —a specification that builds on KS3 prior learning and provides a firm foundation for students to make a smooth transition to A level

Assessment Summary

- Emphasis is placed on the four core skills of Speaking, Listening, Reading and Writing
- 100% external assessment –all exam papers will be set and marked by the Awarding Organisation
- 25% assessment weightings per skill (listening, speaking, reading and writing)

Post 16, University Pathways and Careers

This includes studying French at AS and A-Level. Knowledge of French can also open doors to a whole range of different careers in the fields of Languages, Law and Diplomacy providing opportunities in Medicine, the Environment, Business, Engineering, Science and Technology.

CAIE Information And Communication Technology IGCSE SYLLABUS 0417

Course Outline

The syllabus aims to summarise the context in which you should view the syllabus content and describe the purposes of a course based on this syllabus. The aim is to develop: knowledge of ICT including new and emerging technologies; autonomous and discerning use of ICT skills to enhance work produced in a range of contexts; skills to analyse, design, implement, test and evaluate ICT systems; skills to consider the impact of current and new technologies on methods of working in the outside world and on social, economic, ethical and moral issues; ICT-based solutions to solve problems; the ability to recognise potential risks when using ICT, and use safe, secure and responsible practice.

Assessment Summary

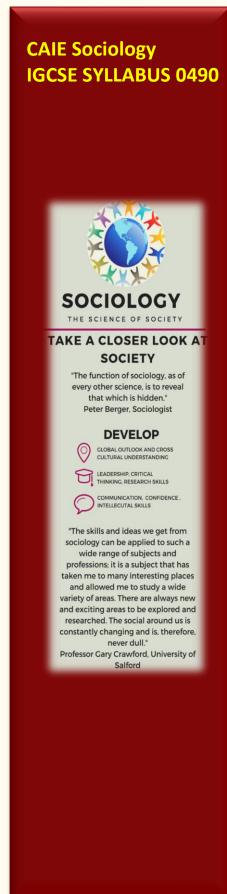

Students sit an external examination set by the Cambridge Assessment International Education (CAIE). The examination consists of two papers, the details of which can be found in the table below.

the details of which can be found in the table below.				
Paper 1 Theory 40%	Paper 2 Practical Document			
100 marks	Production, Data Manipulation and			
	Presentations 30%			
	80 marks			
2 hours Examination	2 hours 30 minutes Examination			
Questions will be based on sections 1–21 of the subject content. All questions are compulsory Externally assessed	This test assesses the practical skills needed to use the applications covered in sections 17, 18 and 19 of the subject content. Candidates must demonstrate the practical skills relevant to sections 11–16 All tasks are compulsory Externally assessed			
Pa	aper 3 Practical			
Data Analysis and W	Vebsite Authoring 30% (80 marks)			
	This test assesses the practical skills			
	needed to use the applications covered			
2 hours 30 minutes	in sections 20 and 21 of the subject			
Examination	content. Candidates must demonstrate			
LAGITITIACION	the practical skills relevant to sections			
	11–16. All tasks are compulsory			
	Externally assessed			

Post 16, University Pathways and Careers

Student may continue with Applied ICT and Computing in AS and A level after completing this course. This qualification will provide an option to prepare for an advanced level of ICT qualification in their further education. Professions and areas IT graduates can take up in future include Computer Networking, Information System Management, Information Analyst, IT Coordinator and Technicians, Database Administrator and Programmer.

Course Outline

Sociology is an exciting and illuminating field of study that studies, analyses and explains human social relationships and institutions. Sociology's subject matter is diverse, ranging from crime to religion, from the family to the state, from the divisions of race and social class to the shared beliefs of a common culture, and from social stability to radical change in whole societies.

Sociology provides the candidates with lifelong skills, including: a better understanding of how we become who we are, the ability to analyse human behaviour within their own society, between different cultures and across different periods of time, the ability to use sociological evidence and ideas to challenge one's own beliefs and the beliefs of other people about social issues at the local, national and international level.

Assessment Summary

Paper	Time (duration)	Total marks	No. of questions to be attempted	Weightage
Paper 1	2 hours	80	One Compulsory	60%
		marks	data response	
			One structured	
			question from a	
			choice of two	
Paper 2	1 hour 45	70	Two optional	40%
	min.	marks	structured	
			question from a	
			choice of four	

Post 16, University Pathways and Careers

IGCSE course in Sociology is accepted by schools, universities and employers as proof of knowledge and understanding about the socio-economic and political conditions of the world, people are part of.

Sociology is an excellent preparation for careers in Law, Public Policy, Social Work, Public Administration, as Educators, Researchers, Public Relations, Consumer Research, Programming, Administration, Banking, Media (radio/television), Political organisations, Human Resources Management, Corporate Training and Development, Admissions, Advising, Alumni Relations, and Placement offices (and many more).

Course Outline

The IGCSE Business Studies syllabus develops students' understanding of business activity in the public and private sectors, and the importance of innovation and change. Students learn how the major types of business organization are established, financed and run, and how their activities are regulated. Factors influencing business decision-making are also considered, as are the essential values of cooperation and interdependence. The course gives an overview of marketing, Human Resource, operations and financial management. Successful IGCSE Business Studies students gain lifelong skills, including confidence to calculate and interpret business data; communication skills including the need to support arguments with reasons.

Assessment Summary

Two written examinations

Paper I One and half hour 50% of the marks (Short answer and structured questions)

Paper II One and half hour 50% of the marks (Based on case study)

Post 16, University Pathways and Careers

IGCSE Business Studies provides a foundation for all management courses such as Bachelor of Business Administration, Master of Business Administration, Chartered Accountancy and Management Information Systems.

Students pursue careers in management consultancy, investment banking, general management and public sector management, among other areas.

Faculty: Physical Education Leader: Pechetti Sri Vani

A high-quality Physical Education curriculum inspires all pupils to succeed and excel in competitive sport and other physically demanding activities. It provides opportunities for pupils to become physically confident in a way which supports their health and fitness

Course Outline

The National Curriculum for PE aims to ensure that all pupils:

- develop competence to excel in a broad range of physical activities
- physically active for sustained periods of time
- engage in competitive sports and activities
- lead healthy, active life

What will students learn?

Throughout Key Stage 3 (Year 7 - 9) students will be taught to:

- use a range of tactics and strategies to overcome opponents in direct competition through team and individual games [for example, basketball, badminton, cricket, football, netball, rounder's, and tennis]
- develop their technique and improve their performance in other competitive sports [for example, athletics, swimming, basketball, cricket, badminton, football, Netball, Rounder's and volleyball]
- take part in outdoor and adventurous activities which present intellectual and physical challenges and be encouraged to work in a team, building on trust and developing skills to solve problems, either individually or as a group
- analyse their performances compared to previous ones and demonstrate improvement to achieve their personal best
- take part in competitive sports and activities outside school through community links or sports clubs.

Assessment Summary

The course is designed to test students' understanding of the material using a variety of assessment methods including skill performance tests and peer-assessments, self-assessments and group assessments in addition to daily points allotted for attendance and participation.

The arts promote freedom of expression through plays, creation activity such as devising, promotes team skills, leadership, equality and diversity within lessons, working with others in lessons, imagination and encourages students to be independent leaners.

Course Description:

Drama enables pupils to explore, develop and express ideas and concepts which will help them make sense of reality. Drama is a life skill and a creative art form. The students learn how to be effective team members, develop their confidence when speaking to and performing in front of peers as well.

At Key Stage 3, all students in Year 9 have one lesson of Drama each week. In these lessons, students will be looking at a variety of techniques such as Oracy creating a business as well as key performance techniques, analysis and evaluation. Students will learn the art form of public speaking and delivering presentations enabling them to have the confidence to transfer this into other subjects.

What will students learn?

Term 1 - In Term 1, students will be focusing on:

- Physical Theatre
- The Business

Term 2 - In Term 2, students will focus on:

- Oracy
- Missing Persons T.I.E

Term 3 - In Term 3, students will focus on:

- Evaluating Live Performance
- Scripts

Assessment: Assessment is based on participation, self-evaluation, and assignments both written and performed at the end of each unit.

ASSESSMENT

Assessment is an integral part of Teaching and Learning and is required to optimise all students' learning and teachers' teaching by providing a picture of progress and achievements and to identify the next steps to success.

Types of Assessment

Assessment for / of Learning / as Learning:

- There are three principal functions of assessment- assessment for learning, assessment of learning and assessment as learning
- Assessment for learning highlights and emphasises the contribution assessment can make to the day to day process of teaching and learning (formative)
- Assessment of learning helps to create a cumulative record of children's progress and attainments (summative)
- Assessment as learning is the use of a task or an activity to allow students the opportunity to use assessment to further their own learning. This offers students the chance to set their own personal goals and advocate for their own learning
- **I. Summative** is Assessment **of** Learning. It is used mainly to measure performance and clearly identifies a standard of pupil attainment against given criteria. It is carried out at the end of a period of learning. Examples:
 - Internal School Examinations
- **II. Formative** is Assessment **for** Learning. It is ongoing and provides evidence of and for progression in learning.
 - It supports learning through identifying difficulties, providing feedback and diagnosing future learning priorities.
 - Formative assessment can also be used to evaluate the effectiveness with which a teacher in mediating the curriculum and thus inform his/her future planning.
 - This includes:
 - a. Weekly tests
 - b. Home work
 - c. Class work
 - d. Group Activity Project work, Research based Learning etc.
- **III. Self-Assessment** encourages pupils to take responsibility for their own learning by:
 - a. Evaluating their own achievement against shared learning outcomes
 - b. Identifying their own strengths and areas for improvement
 - c. Encouraging individual learning goals and action plans for future progression
 - d. Fostering a self-reflective learning culture
 - e. Encouraging independence in learning

Peer Assessment is used when relevant. Pupils are encouraged to clarify their own ideas and understanding of both the learning intention and assessment criteria while assessing other pupils' work.

II. External Assessments at CIS

CIS takes part in the Cognitive Abilities Test (CAT4), and Progress Tests (PT English, Maths and Science), TIMSS, PISA, PASS and IGCSE, GCSE, AS & A level.

The Cognitive Abilities Test (CAT4):

CAT4 assesses a pupil's ability to reason with and manipulate different types of material through a series of Verbal, Non-Verbal, Quantitative and Spatial Ability tasks. Together, these four tests provide teachers with a comprehensive profile of a pupil's reasoning abilities, and as such the core abilities related to learning.

The resulting data can then be used to identify a pupil's strengths, weaknesses and learning preferences, providing accurate and reliable information that is essential for personalised learning. The more we know about a pupil, the better position we should be in to offer a learning environment and ways of teaching and learning that allow pupils to maximise their potential. Information about a pupil's reasoning ability will be key to many decisions and is considered alongside attainment data and other factors known to impact on learning, such as attendance and attitude.

Progress Tests (PT)

These are nationally benchmarked assessments. They will *be* used year-on-year to support teachers at CIS in identifying current levels of attainment and monitoring progress. The group of tests reflects the English National Curriculum as well as the other UK curricula, making it up-to-date and highly relevant.

Year 9

Year 9 students will undertake both formative and summative assessments through the term and records of all subjects will be kept in SIMS mark sheets tracking progress against a quantitative measure of attainment.

Assessments in Year 9 will be consistent with the National Curriculum. Assessment being an integral component of teaching and learning, CIS will use Progress Tests (PT) in English, Maths and Science to monitor progress and attainment. These are externally set and intended to provide feedback with respect to how well the student is grasping the concepts being taught. PT tasks are graded and these scores are maintained for the purpose of term end reports. However, all assessments conducted will be shared with parents on an ongoing basis.

PASS Survey Report

The success of young people's educational experience is heavily determined by the attitudes that they bring to their learning, their sense of aspiration and the feelings they have about their place in the broader social context of the school. The PASS diagnostic is a powerful, multi-factorial measure of students' attitudes to school, learning and success. Its robust nature enables the data it yields to be used as a means of establishing baselines and to support effective planning, implementation and evaluation of interventions at individual, group and whole school levels. The data combined with other student data such as GL CAT4, Progress Test, gives staff in school, in collaboration with the young people, greater opportunity to make informed decisions about their future learning and to help them towards further success

Assessment Cycle in the Calendar

Proposed dates 2022-2023

The school calendar will publish the summative assessment dates

Year		Internal Examinations/ Assessments & International Benchmark Assessments								
	CAT4	PASS 1	PASS 2	PT	Baseline	Term1	Term 2	Term 3	Progress	
9									Test	
	Oct	Oct	May	June	Sept	Nov-Dec	March	May	June	

Report Release Dates:

Year Group	Dates	Report
Year 9	December	Term 1
Year 9	April	Term 2
Year 9	June	Final (Term 3)

CIS Point Scale

	CIS - Point Scale						
Marks	Indicator by colour	Point Scale	IGCSE Grade	Descriptor			
91 -100		9	A*	Student demonstrates both breadth and depth of knowledge and understanding of the topic/curriculum standard. Originality and insight are			
85 - 90		8	A*	consistently evident.			
80 - 84		7	Α	Student demonstrates extensive knowledge and understanding of the topic using them effectively in a wide range of contexts. Originality and insight are generally evident.			
77 - 79		6+	B+	Student applies a wide range of technique to exhibit his/her understanding of			
74 - 76		6	В	the topic and use abstract knowledge in a range of contexts.			
71 - 73		6-	B-	Student is able to apply and use knowledge and understanding in unfamiliar			
68 - 70		5+	C+	contexts. Analysis, synthesis and evaluation are occasionally evident. He/ Shi meets the expected curriculum standards.			
65 - 67		5	С	meets the expected curriculum standards.			
62 - 64		4	C-	Student understands and relates to the topic using appropriate terminolog He/She applies and uses knowledge and understanding in familiar contexts			
59 - 61		3	D				
56 - 58		2+	D-	Student shows his/her developing knowledge and understanding of the topic.			
53 - 55		2	E	He/She begins to identify the different the ways in which the topic is represented and suggest answers relevant to the questions.			
50 - 52		2-	E-				
40 - 49		1+	F	Student should bir the amounting to audide and understanding of the section			
30 - 39		1	F.	Student shows his/her emerging knowledge and understanding of the topic. He/She begins to recognise and respond to the questions with the help of prompts and suggestions.			
20 - 29		1-	G				
0-19			U	Ungraded
