**Empathetic Edgar**

**Agile Anita**

**Hard-working Hannah**

**Linking Liam**

**Creating Curtis**

**Meta-thinking Maryam**

**Analysing Anna**

**Realising Raif**

## Advanced Cognitive Performance

# Empathetic Edgar

Edgar is great at making friends. He can **collaborate** with anybody. He shows concern for his friends and the world. Edgar is **confident**, he believes in himself and knows the difference between right and wrong. He is able to listen to others and is willing to **change** his **ideas** if he thinks their idea is better.

# Agile Anita

Anita has an **enquiring** mind. She **takes risks** and **is open-minded** in her thinking. She understands the need to listen to others and take their advice if she believes they are right. She is **creative** and **enterprising** and is willing to invent new ways to solve problems.

Hannah is such a **hard worker**. She realises that when something is hard, you shouldn't give up but you should **persevere** until you have achieved your goal. Even when there are set backs, Hannah is **resilient**, she remains confident and optimistic. She also **helps others** stay focused.

# Hard-working Hannah

# Linking Liam

Liam is amazing at **linking things** together. He listens to other people's views and loves to work with **big ideas**. He is great at forming **generalisations** from **past experiences** that could apply to other situations. He is also good at seeing **alternative perspectives**. His real talent lies in taking **concrete ideas** and moving into **abstract ideas**.

Maryam approaches new learning experiences by connecting what she already knows. She uses a wide range of **thinking skills**. She can **confidently explain** her decisions when solving problems and is good at **monitoring, evaluating** and **self-correcting**. She likes to express her personal views based on evidence.

## Meta-thinking Maryam

Anna is great at asking the right questions to solve problems. She looks carefully at problems and thinks **logically** and **critically** to **find solutions**. She likes to be **precise** and tries hard to find the best way to do things. Anna is very good at working within the rules.

## **Analysing Anna**

Raif is good at the things he does, he doesn't even have to think about them. It wasn't always this way, he has **practiced** so often they are now **automatic**. He can do lots of things with **speed** and **accuracy**.

## **Realising Raif**

Curtis loves to be **playful** with his **thinking**, he likes to bend the rules to make something **original**. He is **flexible** and fluent, he doesn't mind if he has to **change his ideas for better** ones as he has so many! He is always using what he already knows to think up new things to solve new problems.

# Creating Curtis
